

Tania Lattanzio

RESOURCES

16-143-10

Tania Lattanzio is an experienced international educator. Previously a teacher, coordinator and manager with the International Baccalaureate, she is now regional director of Innovative Global Education. In this role she works as a consultant extensively in Asia Pacific and other parts of the world. This role involves developing and conducting professional development for teachers and leadership, modelling pedagogy in classrooms, developing and designing curriculum for schools and working intensively with teaching teams, through mentoring and coaching, to improve planning, teaching and assessment. A passionate educator, Tania works closely with educational institutions to specifically meet their needs in supporting school reform, making significant shifts in pedagogy and curriculum in both local and international settings.

Taking the Complexity out of Concepts

This book is a practical resource designed by Innovative Global Education (IGE) to assist educators in making the shift from a content-based curriculum to a conceptual curriculum. To meet the demand for better professional learning materials devoted to conceptual learning, IGE has formulated the IGE Model for Formulating Conceptual Understandings and the three-stage IGE Template for Planning Conceptual Learning. In support of these pivotal resources, the book also includes a number of case studies adapted from IGE's professional learning work with schools to serve as exemplars of how real-life educators are actually using the resources in their classrooms.
