Leading Difficult Conversations: Professional Learning Communities at Work DVD

Transforming a school into a professional learning community (PLC) requires changing embedded behaviours, beliefs and processes, which can cause resistance and conflict. In healthy PLCs, these conflicts are addressed in ways that both support core values and respect team members. In this short video, Richard DuFour and Rebecca DuFour model a principal and a teacher engaging in a conflict over marking practices, then the role play is broken down and analysed. Viewers will learn how to hold difficult but crucial conversations that lead to higher levels of commitment to PLC practices.
