Sunday 17 May 2015

Session One | 8:30 am– 10:30 am

Student Leaders: Agents for Change in Creating a Friendly School

Social marketing is not something we often see as a common role in school communities, yet it is crucial in establishing a commitment to a whole-school vision and goals. Students have been found to be highly effective as leaders for change in the school community by supporting the prevention of bullying and cyberbullying. Participants will explore strategies for engaging students in clearly defining, articulating and promoting these key messages for whole-school community change. This will include ideas, promotion examples and feedback from real Australian student leaders.

Session Two | 11:00 am– 1:00 pm

Change: From "Behaviour Management" to "Supporting Students to Manage Their Own Behaviour"

Think about it. The role of teachers is not to "manage students' behaviour". Their role, in partnership with the students' families and carers, is to support students in managing their own behaviours.

Supporting children's emotional, social and behavioural development enables them to more effectively engage in their learning and enhances their motivation to reach their full potential. Behavioural "mistakes" will be inevitable and offer an opportunity for us to teach young people skills and understandings in the same way we treat other learning errors. This session identifies practical and real strategies to help to support students in managing their own emotions, behaviours and learning.

Session Three | 2:00 pm– 4:00pm
