PHONICS for Reading Series

Phonics for Reading uses explicit, systematic instruction. Because students, regardless of age or ability, must learn letter-sound relationships, decoding rules and various strategies for pronouncing words, they benefit from systematic, teacher-directed lessons. The structure of each lesson in the three levels of Phonics for Reading is consistent throughout the program, so students are able to focus on the content rather than on the teaching procedures being used. Lessons are carefully scripted for the teacher so that instruction is just as easy to deliver as it is to follow!

Dr. Fry's Phonics Charts

A complete phonics curriculum on 98 charts. Here is a complete curriculum in just one book. It contains all or more of the phonics taught in most readers or other complete phonics programs. The charts can be used in the early years of school as Phonemic Awareness. The charts can be used for Years 1-4 for real phonic instruction where reading some of the example words is expected. They can also be used in the middle years for remedial or ESL students.
