

Stop Faking It!

Finally Understanding Science So You Can Teach It

Worried your scientific knowledge isn't quite up to scratch? Never fear, the award-winning Stop Faking It! series comes to the rescue! With his trademark wit and clarity, author Bill Robertson has helped countless teachers develop a deeper understanding of scientific principles, from physics to chemistry and everything in between. Each title features straightforward explanations together with fun activities you can try at home. Stop Faking It! is perfect for primary and secondary teachers looking to come to grips with the basics so that they can teach science with confidence.

Chemistry Basics: Stop Faking It! Finally Understanding Science So You Can Teach it

William C. Robertson • 9781760019877

A fresh approach to chemistry fundamentals by helping you understand them from the ground up. So instead of hounding you to memorise the characteristics of atoms and the periodic table, this book helps you to see those characteristics as a natural consequence of our understanding of atomic structure. Too many teachers, parents and home-schoolers are face with helping other people understand science that they don't really understand themselves. Chemistry Basics will help you grasp chemistry at a level deep enough to teach it to others with confidence and comfort.

More Chemistry Basics: Stop Faking It! Finally Understanding Science So You Can Teach It

William C. Robertson • 9781760019815

Following on from Chemistry Basics, More Chemistry Basics introduces additional chemistry concepts, such as special reactions and half-lives, and expands on many previously discussed ideas, including electron energy levels and why we can't know exactly what electrons are doing and where they are. Robertson explains science basics using easy-to-follow activities that help teachers learn the fundamentals and more. Like other books in the Stop Faking It! series, More Chemistry Basics will prove invaluable for teachers, parents, and home-school providers who want to feel greater confidence in the content they teach.

Force and Motion: Stop Faking It! Finally Understanding Science So You Can Teach It

William C. Robertson • 9781760017446

Intimidated by inertia? Frightened by forces? Mystified by Newton's Three Laws of Motion? You're not alone The Stop Faking It! series is perfect for science teachers, home-schoolers, parents wanting to help with homework, all of you who need a jargon-free way to learn the background for teaching middle years physical science with confidence.

Companion Classroom Activities for Stop Faking It! Force and Motion

William C. Robertson • 9781760017040

Stop Faking It! Force and Motion helped thousands of teachers, parents, and homeschoolers conquer topics from Newton's laws to the physics of space travel. Now Companion Classroom Activities for Stop Faking It! Force and Motion proves an ideal supplement to the original book - or a valuable resource of its own. The hands-on activities and highly readable explanations allow students to first investigate concepts, then discuss learned concepts, and finally apply the concepts to everyday situations. Each activity includes an objective, materials list, National Science Education Standards addressed, approximate completion time, and detailed step-by-step instructions.
