

Hawker Brownlow Education

Maths Wonders to Inspire Teachers & Students

Authors: Alfred Posamentier

Date Available:	13 February 2008
ISBN:	1 74170 552 5
Code:	103010
RRP:	\$35.95
Format:	180 x 255 mm, 292 pp
Age Range:	P-12
Category:	Classroom Practice, Gifted Education
Subject:	Maths

Key Selling Points:

- Uses guided examples to show students the wonders of maths
- Improve student performance and engagement in maths
- Examples from arithmetic, algebra, geometry and probability

Summary:

Using guided examples, this book's amazing collection of attention-getters, motivators and enrichment activities entice students (and teachers!) to study mathematics. It offers an abundance of ideas to enrich your instruction and help you explore the intrinsic beauty of maths, regardless of your student's year level or ability. Through dozens of examples from arithmetic, algebra, geometry and probability, the author reveals the amazing surprises, processes, paradoxes and surprises that await students who move beyond mathematical rote learning.
