Summary:

Building Academic Vocabulary: Teacher's Manual will help educators guide students in using tools and activities that will deepen their understanding of critical academic vocabulary. It contains the following: a method to help teachers and schools determine which vocabulary terms are most essential for their needs; a six-step process for direct instruction in subject area vocabulary; and a 'how to' for using student notebooks.

The manual also contains sample and blackline masters for a variety of games and activities to reinforce and refine student understanding of the academic terms and concepts they learn, as well as a comprehensive list of vocabulary terms, organised into eleven subject areas and four year-level categories.

Key selling points:

- Detailed list of academic vocabulary terms is provided for eleven different subject areas.
- Features review activities and games.
- Allows you to design and implement a comprehensive approach to teaching academic vocabulary.
- Provides diagrams, graphs and tables to illustrate key concepts throughout the book.
