## Key Selling Points:

### Summary:

Discover what the best maths teachers know and do to provide motivational and challenging maths instruction for middle and high school students. From setting up the classroom, through to planning learning experiences and assessing results, this is an ideal guide for inexperienced teachers, new staff members and maths faculty members who are either monitoring other teachers or interested in enhancing their own practice.

The topics covered include:

- The most effective instructional practices
- Designing successful lessons
- Incorporating challenge
- Teaching reasoning and problem solving
- Innovative ideas for teaching key concepts
