

Hawker Brownlow Education

The Essentials of Mathematics, Grades 7-12

Authors: Kathy Checkley

Date Available:	26 March 2007
ISBN:	1 74170 261 5
Code:	106129
RRP:	\$35.95
Format:	129 pp
Age Range:	High school, Year 7 to year 12
Category:	Assessment, differentiation, learning styles
Subject:	Mathematics

Key Selling Points:

- Exploration of how to vary instruction for student-centred learning
- Discussion of the influence of curriculum planning
- Identification of the learning experiences teachers want and need

Summary:

For many students, the longer they are in school, the less they trust in their ability to do maths and fail to see why maths is important to know. How can middle and secondary school educators turn that tendency around? Explore how your colleagues are answering that question and improving maths programs in grades 7-12 in this next volume of *Priorities in Practice: The Essentials of Mathematics*. Award-winning mathematics teachers and respected maths researchers share their perspectives on how to improve mathematics education through equal access, technological tools, lessons with real-life scenarios, formative assessments and differentiated instruction.
