

Research-Based Strategies to Ignite Student Learning

Author: Judy Willis

Date Available:	14 August 2009
ISBN:	978 1 74239 288 2
Code:	107006
RRP:	\$35.95
Format:	180x255
Age Range:	K–12
Category:	Professional Development
Subject:	Teaching – Curriculum / Brain

Summary:

In this first book ever written by an author who is both a neurologist and a classroom teacher, Judy Willis combs through brain research and pulls out the information that is most valid and relevant to classroom teaching. Willis takes a reader-friendly approach to neuroscience, describing how the brain processes, stores and retrieves material and which instructional strategies help students learn most effectively and joyfully. Find out how to enhance your students' memory and test-taking abilities. Discover ways to captivate and hold students' attention and encourage their participation and progress.
