RRP:	\$40.00
Format:	A4, 166 pp
Age Range:	Professional Development
Category:	
Subject:	Professional Development

Key Selling Points:

- Use practical and proven methods to diagnose students' knowledge prior to instruction
- Maximise students' understanding of content using creative formative assessments
- Engaging activities include: interactive writing, portfolios, multimedia presentations, public performances and more

Summary:

If you ever have students who are reluctant to tell you when they don't understand something—or worse, tell you they understand when they really don't—then here's a book that gives you lots of ways to check for understanding. Learn why typical methods to check for understanding are usually ineffective. And explore formative assessment techniques that work in any subject area and year level. Extensive classroom examples show you how to use these formative assessments to correct misconceptions, improve learning and model good study skills for individual students or across multiple classrooms.
