Summary:

This book is designed to help schools deliver effective training in curriculum mapping. Creating and using curriculum maps is easy when this in-depth resource is used in workshops, curriculum teams and professional learning communities. Whether you're introducing curriculum mapping for the first time or working with teachers and administrators who are well into the process, the manual's templates, samples and tools help you: establish the rationale for mapping; ensure long-term support for curriculum mapping; create quality maps for the first time or review and improve existing ones; connect curriculum maps to assessment data, instructional strategies and school improvement efforts.
