Format/Page No.: B5, 204 pages
Year Level: Teachers and Administrators
Focus Area: Activities and Exercises,
Critical and Creative
Thinking, Professional
Development
**Key Learning
Area:** Cross-Curricular

Summary

Here are 51 easy-to-use, classroom-tested alternatives to the “stand and deliver” teaching techniques that cause so many students to tune out or drop out. Teachers report that these techniques motivate students to participate in learning, as they demonstrate their knowledge and understanding of lessons.

Refined through years of classroom experiences and supported by additional research, this second edition delivers more than a dozen new techniques to engage F–12 students in active learning.

The authors provide detailed descriptions to the Total Participation Techniques (TPTs) with step-by-step instructions – plus reproducible blackline masters for student response cards as well as posters to remind you to use them. They also suggest how you can adapt and personalise the techniques to fit your context and content.

Packed with examples from authentic classrooms, *Total Participation Techniques* is an essential toolkit for teachers who want to present lessons that are relevant, engaging and cognitively challenging.
