

# Our Only Earth: Troubled Skies

Author(s): Linda MacRae-Campbell & Micki McKisson

**Date Available:** 18 August 2014  
**ISBN:** 978 1 86299 855 1  
**Code/SKU:** 3653  
**RRP:** \$31.00  
**Format/Page No.:** A4, 98 pages  
**Age Group:** 7–10, Teachers and Administrators  
**Topic:** Activities and Exercises, Curriculum, Personal and Social Skills  
**Learning Area:** Cross-Curricular, Geography  
**Supplemental Resource:** Download reproducible resources at [go.hbe.com.au](http://go.hbe.com.au)

## Summary:

Both humanity and Mother Earth have suffered greatly from human insensitivity. Not only are we rapidly depleting the planet's resources and polluting its air, land and water, we also waste our financial resources on destructive expenditures.

Now you can challenge your students with the complexities of energy needs, supplies and policies. As part of the *Our Only Earth* series for Years 7–10, this revised Australian edition of *Our Only Earth: Troubled Skies* informs students about the smog, acid rain, ozone depletion and greenhouse gases threatening our world now and in the future, then empowers them to take action.

Sustainability – both social and environmental – is the overarching theme of all seven books in the *Our Only Earth* series. Through fact cards, activities and journals designed to get students thinking about social and environmental sustainability, each book based on the integrated Our Only Earth framework explores real-life geographical issues and suggests possible solutions, culminating in a summit at which students create action plans and seek ways in which to alleviate global problems.

As of 2014, the series has been updated to show correlations to the Australian Curriculum, both specifically within the subject of geography and generally across all learning areas.

## Supporting Resources:

- *Our Only Earth: Energy Crisis* (3651)
- *Our Only Earth: Rainforests at Risk* (3652)
- *Our Only Earth: Global Poverty* (3654)
- *Our Only Earth: World at War* (3655)
- *Our Only Earth: Endangered Species* (3656)
- *Our Only Earth: Ocean Pollution* (3657)
