Key Selling Points:

- DVD format makes it easy to see how to utilise mind mapping in your classroom
- This great resource makes an excellent addition to any school staff room
- Learn about mind maps and Mindscape direct from an expert in the field

Summary:

It's easy to learn and teach mind mapping when you see it demonstrated and applied in this exciting new DVD. Combine the live-action DVD with information in the book *Mapping Inner Space* and you'll have it all! Watch master mind mapper Nancy Margulies teach her techniques to children and adults in a live demonstration, with one section especially for you to use in the classroom. The techniques shown here will take you beyond any previous books on mind mapping and include the newly developed Mindscape technique for graphic representation of your ideas.
