Summary:

Like any tactic, communication can be helpful or harmful – depending on how it is carried out. The strategies in this book will sharpen your tactical communication tools so that you can:

- Identify strategies to win in situations in poverty, middle class and wealthy communities
- Maintain control on scenes, no matter the economic status of the community
- Decrease the frustration you experience when entering situations in poverty, as well as middle class and wealth
- Be even more successful in the communities you police.

Inside you'll find tools to help you:

- Utilise power and respect with people in poverty
- Translate the law into a meaningful form by basing your information on what the community perceived as meaningful
- Gather information from people no matter what story structure they use
- Connect civilians with resources available in the community
- Gain information that will assist you as you advance in your career
- Address causes of poverty at individual, community and policy levels

With this information you can influence the situation you find yourself in and more effectively control the outcome.
