Code: AHA6727
RRP: \$12.00
Format: A4, 96 pages
Age Group: P-12
Category: Personal and Social Awareness

Ruby K. Payne, Ph.D.

Summary:

A Framework for Understanding Poverty has served hundreds of thousands of educators and facilitators who work with children and adults from poverty. Their efforts have led to many positive changes, including increasing human capital, resources and achievement. But sometimes there's a gap between understanding key concepts and "What do I do now?" or "What's the next step?" Dr Payne has updated and revised the workbook for *A Framework for Understanding Poverty* to address the need for specific action steps. Here now are not only the key understandings and the cognitive and mental models so crucial to addressing challenges faced by students from poverty, but also exercises, charts and specific "Do this next" lists for putting knowledge into action.

Of course, the effectiveness of these action steps is not limited to students from poverty. Giving educators tools to address the impact of socioeconomic class broadens and deepens their success with all students. Yet Dr Payne's focus on under-resourced learners—along with the teaching tools, relationship building and cognitive development so crucial to their success—remains at the core of helping you better serve all your students.

Supporting Resources:

- A Framework for Understanding Poverty, 4th Edition* (AHA8885)
- Bridges Out of Poverty SupaPak* (AHA6743)
- Removing the Mask: Giftedness in Poverty* (29003)
- Bridges to Sustainable Communities* (AHA6002)
