## Summary:

If you didn't grow up in poverty, you may be unaware of the "hidden rules" that govern many aspects of life for the poor. People in poverty are often in survival mode, where the future holds no promise, and support systems taken for granted in middle class and wealth are non-existent. If your business, agency or organisation works with people from poverty, only a deeper understanding of their challenges—and strengths—will help you partner with them to create opportunities for success.

*Bridges Out of Poverty* is a unique and powerful tool designed specifically for social, health and legal services professionals. Based in part on Dr. Ruby K. Payne's myth shattering A Framework for Understanding Poverty, *Bridges* reaches out to the millions of service providers and businesses whose daily work connects them with the lives of people in poverty. The *Bridges out of Poverty DVD Series* is a collection of seven separate DVD presentations, each addressing a different aspect of the *Bridges Out of Poverty* strategy.

*Bridges Out of Poverty: Module 5* features a special presentation by Terie Dreussi Smith addressing family structures and the role of families for those who come from a background of poverty. Presented by Philip E. DeVol, the *Bridges Out of Poverty DVD Series* is the perfect resource for educators wanting to better understand and support their students who come from backgrounds of poverty.
