<b>Format:</b>	CD-ROM, Mac and PC
<b>Age Range:</b>	P-12
<b>Category:</b>	<b>English</b>
<b>Subject:</b>	English

## Summary:

Produce your reports in half the time with the CARS Management software. Your time is valuable, so we have made it even easier to track your student's performance. This program automatically analyses student performance for each strategy and displays individual strengths and weakness. As students complete lessons, track and analyse their results with the Management Software for easy tracking of every student in your classroom. Either method produces a visual comparison of a student's strengths and weakness that, along with your and the student's evaluation, helps create an action plan targetted to each student's specific needs.
