Extensions in Mathematics

Book H - Teacher Guide

Authors: Susan DeStefano and Pamela Halloran

Date Available:	22 January 2007
ISBN:	1 74170 135 X
Code:	CA101169
RRP:	\$16.95
Format:	61 pp, A4, soft cover, staple bound
Age Range:	Upper primary/Middle years
Category:	Problem solving, graphic organisers, assessment
Subject:	Mathematics

Key Selling Points:

- Comprehensive structured program to facilitate the effective teaching and learning of a range of maths strategies
- Provides easily reproducible graphic organisers
- Facilitates the use of consistent, systematic forms of assessment

Summary:

The *Extensions in Mathematics* series is a program that uses graphic organisers to teach mathematics strategies. Through teacher-directed instruction and scaffolded models, students are well-prepared to find solutions and apply and explain the skills learnt. Maths strategies covered include Number Sense, Measurements, Addition, Subtraction, Division, Multiplication, Geometry, Time and Money, and more.

Extensions - Book H - Teacher Guide is an essential part of the *Extensions* series, providing easily reproducible graphic organisers, student self-assessment forms, teacher assessment forms and answer keys.

The *Extensions* component of the CAMS, STAMS and CAMS II series builds on the wide range of skills developed through the series and can be used to reinforce, consolidate and extend maths strengths.
