### Key Selling Points:

- Provides concentrated practice of 6 targeted reading strategies
- Excellent for differentiated instruction and extension activities
- Well-researched and designed to ensure student interest and success

### Summary:

Focus is a reading-strategy practice program that aids all students to achieve reading comprehension success. The program solidifies comprehension with review and practice in six key reading strategies. This 48-book series covers the six strategies – one per title at eight reading levels from A to H. Each teacher guide includes a summary of the research used in program development, an explanation of product design and features, strategies for classroom use, reading strategy tips, three Teacher assessments for individual students, a class or group performance graph, and a completed answer form.

Brief instruction and concentrated practice reinforce targeted strategies for CARS, STARS and CARS II students needing extra practice.

The six strategies covered are Understanding Main Idea and Details, Understanding Sequence, Recognising Cause and Effect, Comparing and Contrasting, Making Predictions and Drawing Conclusions and Making Inferences.
