Subject: Diagnostic

BRIGANCE

Technical Report
for the
BRIGANCE
Screens

Frances Page Glascoe, Ph.D.
Vanderbilt University

Summary:

Designed for children from birth to the end of Year One (seven years, six months), the *Brigance Screens* identify quickly and accurately those who may have developmental problems such as language impairments, learning disabilities or cognitive delays, as well as those children who may have academic talent or intellectual giftedness.

The *Technical Report for the Brigance Screens* is a valuable resource for any educator, parent or professional using the *Brigance Screens*. In addition to detailing the norming, standardisation, reliability and validity data behind the *Screens*, this report provides guidelines for: testing conditions; administering tests and scoring responses; interpreting and explaining testing results, making recommendations; using the *Screens* with at-risk children; using the *Screens* to improve instruction and evaluate progress; determining accuracy of the *Screens* in detection of children with difficulties or probable giftedness; and more.

It also includes sample data sheets, information forms and sheets for parents, and details on comparing the *Screens* to other screening tests. *The Technical Report* is the complete guide to the detailed science behind the *Brigance Screens* and the process of administering them.

Supporting Resources:

- *Brigance: Early Childhood Screen II: 0-35 Months (CA11818)*
- *Brigance: Early Childhood Screen II: 3-5 Years (CA11819)*
