

STAMS[®] Plus Series D Student Book (Set of 5)

Author(s): Curriculum Associates

Date Available: 21 November 2013
ISBN: 978 1 76001 022 5
Code/SKU: CA12632
RRP: \$100.00
Format/Page No.: A4, 176 pages
Age Group: 4–5
Topic: Activities & Exercises
Learning Area: Maths
Supplemental Resource: Interactive Whiteboard lessons

Summary:

Strategies to Achieve Mathematics Success provides students with explicit instruction of 16 maths topics, which cover both concepts and skills, that have been identified as the most important instructional goals for each year level.

Each *STAMS[®] Plus* student book contains 16 highly scaffolded, five-part lessons. Each of these lessons helps students to become independent learners as they are moved through each of the five parts: modelled instruction, guided instruction, modelled practice, guided practice and independent practice. In this way, students are required to use increasing degrees of higher-level thinking to analyse and explain their answers as they move through practice problems that increase in difficulty, ultimately building student proficiency and confidence.

STAMS[®] Plus level D is targeted at students in years 4 and 5, and assesses the following strategies:

Multiplication properties	Relate division to multiplication	Simplify fractions	Angles
Multiply mentally	Divide without regrouping	Decimal place value	Understand area
Multiply by 1-digit numbers	Divide with regrouping	Compare and order decimals	Area of rectangles
Multiply by 2-digit numbers	Equivalent fractions	Relate decimals to fractions	Dot plots

Each lesson in the 2013 Australian edition of *CAMS[®] Plus*, *STAMS[®] Plus* and *Solve[®]* has been aligned with corresponding Australian Curriculum content descriptions.

Supporting Resources:

- *CAMS[®] Plus Series D, Student Book (Set of 5)* (CA12626)
- *CAMS[®] Plus Series D, Teacher Guide* (CA126269)
