Code: CA126891
RRP: \$35.95
Format: A4, 128 pages
Age Group: P-12
Learning Area: English
Category: Activities and Exercises

Summary:

Support students who struggle with reading comprehension due to weak phonemic awareness and decoding skills with the *Phonics for Reading* series. The books across the three levels of the series help build phonemic awareness, decoding and fluency skills to strengthen reading comprehension. They include systematic, explicit instruction that builds confidence and motivation. Furthermore, the books are specifically designed to appeal to older students, so that they can be used across the curriculum and year levels to bring instruction to the students who need them most, regardless of age.

Phonics for Reading uses explicit, systematic instruction. Because students, regardless of age or ability, must learn letter-sound relationships, decoding rules and various strategies for pronouncing words, they benefit from systematic, teacher-directed lessons.

The structure of each lesson in the three levels of *Phonics for Reading* is consistent throughout the program, so students are able to focus on the content rather than on the teaching procedures being used. Lessons are carefully scripted for the teacher in the *Teacher Guide* for each level so that instruction is just as easy to deliver as it is to follow!

The First Level in the *Phonics for Reading* series focuses on short vowels; double consonants; consonant blends; and consonant digraphs.
