

# STAMS<sup>®</sup> Plus Series A Student Book (Set of 5)

Author(s): Curriculum Associates

**Date Available:** 22 November 2013  
**ISBN:** 978 1 76001 016 4  
**Code/SKU:** CA12995  
**RRP:** \$100.00  
**Format/Page No.:** A4, 164 pages  
**Age Group:** 1–2  
**Topic:** Activities & Exercises  
**Learning Area:** Maths

## Summary:

Strategies to Achieve Mathematics Success provides students with explicit instruction of 16 maths topics, which cover both concepts and skills, that have been identified as the most important instructional goals for each year level.

Each *STAMS<sup>®</sup> Plus* student book contains 16 highly scaffolded, five-part lessons. Each of these lessons helps students to become independent learners as they are moved through each of the five parts: modelled instruction, guided instruction, modelled practice, guided practice and independent practice. In this way, students are required to use increasing degrees of higher-level thinking to analyse and explain their answers as they move through practice problems that increase in difficulty, ultimately building student proficiency and confidence.

*STAMS<sup>®</sup> Plus* level A is targeted at students in years 1 and 2, and assesses the following strategies:

Understand addition and subtraction	Add three numbers	Add and subtract ten	Equal parts
Fact families	Count to 100	Add 2-digit numbers	Length
Make tens to add and subtract	Place value	Subtract tens	Time
Solve word problems	Compare numbers	Shapes	Data

Each lesson in the 2013 Australian edition of *CAMS<sup>®</sup> Plus* and *STAMS<sup>®</sup> Plus* has been aligned with corresponding Australian Curriculum content descriptions.
