Format/Page No.: A4, 100 pages
Age Group: Early Learning,
Professional
Development
Topic: Gifted & Support
Learning Area: Cross-curricular

Screen III
Data Sheets
Infant
50-pack

When using the BRIGANCE® Screen III as a norm-referenced assessment, the Infant Core Assessments should be used for children from birth through to 11 months of age.
To derive valid scores, it is important to administer all assessment items and to strictly adhere to the directions and scoring procedures provided. The scores can be used to detect children with potential developmental delays or disabilities and to identify those who may be gifted and academically talented.
For more information about the BRIGANCE® Screens III, visit www.hbe.com.au or see the BRIGANCE® Screens III Technical Manual.

DIRECTIONS FOR USE

- Tuck this cover flap under the top data-sheet set to prevent marking the forms beneath.
- To ensure two clear copies, use a ballpoint pen to write on each data-sheet set.
- After completing each data sheet, remove the set from this book and distribute the information as appropriate.

Summary:

The new *Brigance Screens III* offer developmental screening of children from infancy to year one. The *Screens III* support the efforts of early childhood educators and others working with children to identify potential developmental delays, as well as giftedness, and inform instruction and monitor child progress.

This resource contains 50 copies of the data sheet required to record the results of the *Screens III* for an infant, as well as a carbon paper copy for each data sheet to create a facsimile of the results for your records.
