Age Group: Early Learning, P-2,
Professional Development
Topic: Gifted & Support
Learning Area: Cross-curricular

BRIGANCE   

Screen III
Data Sheets
Three-Year-Old Child
50-pack

When using the BRIGANCE® Screens III as a non-summative assessment, the Three-Year-Old Child Assessments should be used for children from 3 years, 0 months to 3 years, 11 months of age.
To ensure valid scores, it is important to administer all assessment items and to strictly adhere to the directions and scoring procedures provided. The scores can be used to detect children with potential developmental delays or difficulties and to identify those who may be gifted and academically talented.
For more information about the BRIGANCE® Screens III, visit www.nie.com.au or see the BRIGANCE® Screens III Technical Manual.

DIRECTIONS FOR USE
• Tick the correct file number on the data sheet for correct marking the forms booklet.
• To ensure your copies are a full-page size to enter on each data sheet.
• After completing each data sheet, remove the set from the book and distribute the information as appropriate.

Summary:

The new *Brigance Screens III* offer developmental screening of children from infancy to year one. The *Screens III* support the efforts of early childhood educators and others working with children to identify potential developmental delays, as well as giftedness, and inform instruction and monitor child progress.

This resource contains 50 copies of the data sheet required to record the results of the *Screens III* for a three-year-old child, as well as a carbon paper copy for each data sheet to create a facsimile of the results for your records.
