Code: CA3959
RRP: \$29.95
Format: A4, 280 pages
Age Group: Year 5
Learning Area: All
Category: Activities & Exercises

Summary:

Give your students study and work strategies to keep them organised. *Skills for School Success* is a research-based program that transforms "strategy-free" students into successful students who: exhibit positive classroom behaviours, manage time and organise assignments; make effective use of text and reference books and interpret graphic aids; study for and approach tests with confidence; and gather information, take notes and respond in class.

Skills for School Success uses a spiral curriculum; skills that are introduced in one level are reviewed and extended in the following level with more difficult applications, plus additional new skills are added. This program easily adapts for use from the regular classroom to special education classrooms, remedial settings, special study skills programs or summer school programs.

This fully scripted Teacher Guide: Book 5 offers ease-of-use with thumbnails that correspond to the student book pages. The accompanying Student Book (purchased separately) guides the students clearly and simply through the teacher-directed lessons.
