Key Selling Points:

- Screening can be accomplished reliably, validly and accurately
- Quick and effortless to ensure a positive experience for assessor and student alike
- Easy-to-use data sheets facilitate communication between assessors, parents and teachers

Summary:

The Year One Basic Assessments should be used for all year 1 students beginning at 6 years and older, who are either ending prep or beginning year one. The norm established from the study and the new cut-off scores are used to detect students with difficulties and to identify those who may be gifted and academically talented. It is required that each level of the assessments be administered in its entirety, following the directions and scoring procedures in strict accordance with the directions accompanying each basic assessment.

The Year One Data Sheets are for use with the Brigance P&I Screen-II. These duplicate carbonless sheets are designed for recording the child's personal information; recording screening responses and observations and calculating scores; and communicating results with staff and parents.
