**RRP:** \$23.95  
**Format:** A4, 20 pp duplicate  
**Age Range:** Two-Year-Old Child to Two years and Five Months  
**Category:** Assessment  
**Subject:**

## Key Selling Points:

- Screening can be accomplished reliably, validly and accurately
- Quick and effortless to ensure screening is a positive experience for all involved
- Easy-to-use data sheets facilitate communication between assessors, parents and teachers

## Summary:

The Two-Year-Old Child Basic Assessments should be used for children aged 2 years to 2 years and 5 months. The norms established from the study and the new cut-off scores are used to detect children with difficulties and to identify those who may be gifted and academically talented. It is required that all basic assessments at the Two Year Old Child level be administered, following the directions and scoring procedures in strict accordance with the directions accompanying each basic assessment.

The Two-Year-Old Child Data Sheets are for use with the Early Preschool Screen-II. These duplicate carbonless sheets are designed for recording the child's personal information; recording screening responses and observations and calculating scores; and communicating results with staff and parents.
