Brigance IED-II Developmental Record Book (pack of 10)

Author: Albert H. Brigance

Date Available:	6 March 2007
ISBN:	1 74170 284 4
Code:	CA9564
RRP:	\$29.95 (set of 10)
Format:	A4, 32 pp
Age Range:	Birth to developmental age 7
Category:	Early Childhood Development
Subject:	Assessment

Key Selling Points:

- Quickly and easily diagnose weaknesses and pinpoint strengths
- Follow the developmental progress of your students over time
- Easy to share results with parents or hand over information to follow on staff

Summary:

The Inventory of Early Development II is used in early childhood programs, preschools and day-care centres. In addition to helping identify "at risk" infants and preschoolers, the IED tracks development, assists with instructional planning and is useful for communicating with parents. Features of the Inventory of Early Development include: Social and Emotional Skill Section; Comprehensive Skill Sequences; and Updated References.

The Inventory of Early Development-II includes over 200 developmental, readiness and early academic skills assessments in 11 major skill areas: perambulatory motor skills and behaviours, gross-motor skills and behaviours, fine-motor skills and behaviours, self-help skills, speech and language skills, general knowledge and comprehension, social and emotional development, readiness, basic reading skills, manuscript writing and basic maths.

The Developmental Record Book allows assessors to record criterion-referenced and standardised results for each child to provide information to diagnose strengths, pinpoint areas of weakness and monitor progress
