Summary:

The IED-II Standardisation and Validation Manual is for use with the Inventory of Early Development-II. The Inventory of Early Development-II is used in early childhood programs, preschools and day-care centres. In addition to helping identify “at risk” infants and preschoolers, the IED tracks development, assists with instructional planning and is useful for communicating with parents. Features of the Inventory of Early Development include: Social and Emotional Skill Section; Comprehensive Skill Sequences; and Updated References. The Inventory of Early Development includes over 200 developmental, readiness and early academic skills assessments in 11 major skill areas, including gross-motor skills, fine-motor skills, self-help skills, speech and language skills, general knowledge, comprehension, social and emotional development, readiness, basic reading skills, and more.
