### Key Selling Points:

- Clear directions for administration and record-keeping of the assessments
- Records ongoing assessment and progress to review with staff or parents
- Tracks assessments administered, responses, progress and instructional objectives

### Summary:

The Inventory of Early Development–II is used in early childhood programs, preschools and day-care centres. In addition to helping identify “at risk” infants and preschoolers, the IED–II tracks development, assists with instructional planning and is useful for communicating with parents. The Standardised Assessments Record Books are used with the IED–II to record responses on the standardised portions of the IED–II and provide basals, ceilings and entry points.
