Category:

English

Subject:

English

Summary:

The easy-to-use CARS Series helps you plan the work your students need to become stronger readers and to perform at their true potential. As they work through the lessons, students gain an awareness of reading strategies and evaluate their own progress. All levels of the series assist pre-reading and later students to understand and lay the foundation for lifelong reading success, with an emphasis on developing key reading strategies, identifying their level of mastery and providing practice with self-assessment and goal-setting. Take the classroom and research-tested CARS Series to your blossoming readers and guarantee them the best possible literacy instruction.
