Category: English
Subject: English

Summary:

Comprehensive Assessment of Reading Strategies II is the assessment section of a 5-step reading program that begins with diagnosis (CARS Series), helping you assess your students as they become stronger readers that perform at their true potential. All levels assist students and lay the foundation for lifelong reading success, with an emphasis on determining their proficiency and improvement in key reading strategies, measuring their improvement in comprehension after instruction and providing important practice with self-assessment. Take the classroom and research-tested CARS II Series to your readers and guarantee the best possible literacy instruction, gauging improvement and where attention is needed.
