Summary:

In this greatly expanded and extensively updated edition of a widely popular resource you see how teachers' individual and collective capacities for continuing self-improvement are strengthened over time through Cognitive Coaching. You gain essential skills, protocols, guidance, research and resources to use when implementing Cognitive Coaching principles and values in your own school setting. Towards the goal of making schools better places where more students succeed and satisfaction in learning and teaching prevail, Costa and Garmston let you know about their own learning and how new research and practice can support individuals and schools in reaching higher, more satisfying and more holistic performance. Organised into four sections, the book makes the concepts clear!

Key selling points:

- An all new edition of the 'must have' resource for improving instruction
- Clearly organised to show the essence of Cognitive Coaching
- Includes strategies and tactics for engaging in coaching
