<b>Format:</b>	A4, 302 pages
<b>Age Range:</b>	P-12
<b>Category:</b>	Professional Development
<b>Subject:</b>	Professional Development

## Summary:

This indispensable volume is ideal for teachers and school leaders, and provides an accessible framework based on how the brain learns, and shows how to use that knowledge to help both teachers and students reach higher performance levels. This guidebook builds the bridge from brain research to classroom practice, and helps readers understand the three essential elements for learning: relaxed alertness, immersion in complex experience, and active processing – and provides examples, teacher reflections, student vignettes and commonsense strategies for creating an optimum emotional climate for learning. This second edition includes:

- Updated research sections
- Revised sections on leadership
- New anecdotes from classrooms
- A vocabulary guide at the end of each chapter.

*12 Brain/Mind Learning Principles in Action, Second Edition*, provides staff developers, teachers and administrators with the latest research on brain-compatible learning to improve student performance.

## Supporting Resources:

- CO5905 – Teaching the Male Brain
- CO4502 – Becoming a “Wiz” at Brain-Based Teaching
- PE4271 – Brain Compatible Classrooms
