Summary:

Designed around the best-selling book *Keys to Curriculum Mapping*, this innovative multimedia presentation offers staff developers all the materials needed to help school leaders initiate and implement curriculum mapping to ensure that instruction meets standards and local school performance objectives. This complete resource helps trainers answer the questions most important to educators, including:

- What role does curriculum mapping play in addressing all content standards?
- How does it promote staff development?
- How can educators use curriculum mapping to match teaching with assessment?
- How can schools adapt curriculum mapping to support other school-based programs?

Packed with practical strategies for beginning the collaborative process of curriculum mapping, this multimedia kit contains:

- The companion book *Keys to Curriculum Mapping*
- A companion DVD
- A step-by-step Facilitator's Guide

This complete all-in-one package is an indispensable resource for anyone planning, designing or conducting training on curriculum mapping, including principals, staff developers and administrators.

Supporting Resources:

- CO2364 – Curriculum Mapping
- CO5657 – A Guide to Curriculum Mapping
- CO2372 – Curriculum Mapping for Differentiated Instruction, P-8
- CO3514 – Using Curriculum Mapping and Assessment Data to Improve Learning
