## **Key Selling Points:**

The Leadership Brain provides teachers with tools to:

- Understand the differences in learning and retention, left and right hemispheric preferences, higher-order thinking and the nature of creativity
- Initiate and lead productive change within the school
- Effectively shape and manage school culture
- Address the call for ethical and spiritual leadership
- Understand how thinking habits influence our actions, especially with problem solving and conflict resolution
- Reduce misconceptions about students with disabilities, gifted and minority students

## **Summary:**

The Leadership Brain provides a new model for a whole-brain approach to educational leadership. This powerful resource examines what we know about the adult brain and how to apply these lessons to effective school leadership and team management. The Leadership Brain includes valuable self-assessment tools, resources and practical applications that will help instructional leaders develop a modern, creative and team-centred school where all students and teachers can reach their full potential.
