Summary:

With its focus on developing high-quality curriculum that reaches students across the learning spectrum, the Parallel Curriculum Model (PCM) is a groundbreaking new curriculum that helps teachers develop student potential and challenge and motivate even the most academically talented students. This nationally recognised curriculum design presents four complementary approaches, or parallels, from which to explore an area of study and develop the full potential of all students. Now you can easily introduce, demonstrate and elaborate upon the Parallel Curriculum Model in your own staff development workshops, trainings and study groups with this complete multimedia kit.

Key selling points:

- The kit contains everything needed to lead a group through the parallel curriculum design and development
- Includes the runaway bestseller, *The Parallel Curriculum: A Design to Develop High Potential and Challenge High-Ability Learners*
- Companion DVD features section-by-section navigation
- The step-by-step facilitator's guide linking the DVD with the core book is complete with extended activities, overheads and reproducible handouts.

Supporting resources:

- *The Parallel Curriculum in the Classroom, Book 2 - Units for Application Across the Content Areas, P-12 (CO0981)*
- *The Parallel Curriculum in the Classroom, Book 1 - Essays for Application Across the Content Areas, P-12 (CO0973)*
- *Differentiation For Gifted And Talented Students (CO099X)*
