RRP: \$39.95
Format/Page No.: A4, 130 pages
Age Group: F–12, Professional Development
Topic: Activities & Exercises, Critical & Creative Thinking, Curriculum, Leadership
Learning Area: Cross-curricular, Technology

Summary:

No doubt about it, technology is a necessity in the modern classroom. Enhance your curriculum and launch a stress-free implementation of the technology components required by curriculum standards with Google's suite of free, easy-to-use educational tools.

Written for both the tech-challenged and tech-savvy teacher, *Google Apps Meet Curriculum Standards* shows you how to design robust lessons that help students meet and exceed curriculum standard requirements to think critically, problem solve, research, collaborate and create original documents to publish on the web. Michael J. Graham shows how you can easily plan fun lessons with

- Specific, step-by-step instructions and screen shots for a variety of Google apps
- Complete sample lessons plans and correlations for primary, the middle years and secondary school
- Technology Infused Teaching Tips for maximum integration of curriculum standards into your curriculum
- Resource links to training videos, websites and interviews with current Google Apps for Education Users
- Classroom management and online safety tips
- Authentic student work examples

In clear and direct language, *Google Apps Meet Curriculum Standards* walks you through the process of transforming your classroom into a 21st century learning lab for higher education and career-ready students.
