Subject:	Professional Development

Summary:

In this invaluable resource, noted brain expert Eric Jensen shows educators how they can achieve consistent, positive learning outcomes using powerful brain-compatible teaching methods. Based on exacting criteria, these methods comprise the physical, social, environmental and neurological factors that influence learning. This reader-friendly model covers both process and content and identifies specific characteristics of successful strategies, providing adaptable, easy to learn techniques aligned with current brain science. True mastery of teaching comes with understanding and employing the fundamental principles of learning. This book provides the knowledge, strategies and action steps that teachers, teacher leaders and mentors need to help all students reach their full potential.
