# Learning Smarter: The New Science of Teaching

Authors: Eric Jensen with Michael Dabney

<b>Date Available:</b>	13 September 2007
<b>ISBN:</b>	1 74170 110 4
<b>Code:</b>	CO1104
<b>RRP:</b>	\$39.95
<b>Format:</b>	A4, 248 pp
<b>Age Range:</b>	P-12, Professional Development
<b>Category:</b>	Brain-based Learning, Class Room Practice
<b>Subject:</b>	Professional Development

## Key Selling Points:

- Uses brain-based strategies to boost student performance in the classroom
- Incorporates research on the effects of environment, diet, exercise and the performing arts on enhancing cognition
- Engagingly written and incredibly practical resource for every teacher

## Summary:

Learning Smarter translates the latest research into easy-to-implement action steps to help increase your teaching effectiveness. Each of the brief articles summarises exciting discoveries about the brain and learning while translating them into practical classroom applications. Included within each chapter are specific tips for boosting cognition, improving test scores and encouraging student achievement. Each of the 100 or so reader-friendly briefs ends with a complete list of references for additional fact finding.
