

Hawker Brownlow Education

Music with the Brain in Mind

Author: Eric Jensen

Date Available:	21 June 2007
ISBN:	1 74170 112 0
Code:	CO1120
RRP:	\$39.95
Format:	A4, 130 pp
Age Range:	P-12 Professional Development
Category:	Brain-based Learning, Class Room Practice
Subject:	Arts/Drama/Music

Key Selling Points:

- Practical and informative resource of benefit to any learning environment
- Uses brain science to demonstrate the value of integrating music into your classroom
- Details types of music and how to maximise their classroom impact

Summary:

Although compelling evidence supports the value of the musical arts in school, many educators still fight for its inclusion. This timely resource translates the latest brain and music research and provides practical strategies for incorporating the musical arts at all levels. With sections on both theory and classroom applications, you'll find it easy to put science into practice immediately and convince others of its benefits. From a primer on how the body hears music to its impact on stress level, perceptual-motor skills, memory and emotional intelligence, you're in for a feast of facts and findings. Included are tips for choosing music and the various benefits of different music types.
