Summary:

This second edition of *Problem Solving in Mathematics, Years 4-7*, stresses the importance of problem solving in mathematics and helps teachers develop students' creative problem-solving skills for success in and out of school. It presents nine tried-and-true strategies that students can use to solve problems, such as working backwards, finding a pattern, making a drawing or solving a simpler equivalent problem. With helpful teaching notes, sample problems for students that fit into any mathematics curriculum, and step-by-step solutions to sample problems, this book is perfect for teachers who want their students to succeed in mathematics!
