## Summary:

In *The Distributed Leadership Toolbox*, Mark E. McBeth translates current leadership research into a practical framework to help educational leaders improve their practice and positively influence schoolwide performance. Unlike shared leadership, which focuses on delegating responsibilities, distributed leadership fosters a dialogue between school leaders and teachers to uncover the effectiveness of leadership practices in enhancing instruction and student achievement. The author provides case studies and essential tools to help administrators. This guidebook includes helpful notes for facilitators and a CD-ROM with resources and reproducible templates to help you make a significant difference in your school through distributed leadership practices.
