ISBN:	1 74170 117 1
Code:	CO1171
RRP:	\$49.95
Format:	A4
Extent:	246 pages
Age range:	Professional Development
Category:	Brain-based Learning, Classroom Practice, Underachievement

Summary:

This book helps you turn the latest developments in neuroscience into practical classroom activities for students with common learning challenges. Offering real strategies for real classrooms, David Sousa's latest work is an indispensable tool for all educators, school administrators and teachers, staff developers, preservice educators, and even parents who want to better understand the way their children process and retain information.

Key selling points:

- A practical framework for identifying and motivating special needs students
- Expanded chapters on attention and autism spectrum disorders
- Responsiveness to Intervention (RTI) for evaluating students at risk
- Revised material on reading, emotional and behavioural disorders
- References to over 230 new scientific studies

Supporting resources:

- *The Leadership Brain* (CO0701)
- *How The Brain Learns* (CO0965)
- *How The Brain Learns – Facilitator's Guide* (CO0957)
- *How The Brain Learns To Read* (CO071X)
