## Summary:

***Works like an app to close the learning gap!***

Jane E. Pollock, coauthor of *Classroom Instruction That Works*, expands on the bestseller's feedback strategy in this ground breaking work.

While feedback is not a new concept, what is new is using it the way children use computer apps – to set goals, track their progress and self-regulate their own learning. With only a slight shift in teaching strategy, this no-cost technique

- informs teachers while students are learning, not after
- engages and motivates learners
- teaches 21st-century skills
- helps students understand and meet standards

Educators will find a wealth of classroom examples and success stories that bring this proven practice to life. In addition to boosting achievement, *Feedback* helps students develop a lifelong learning skill that they will use in everything they do.
