

# Secrets of the Teenage Brain: Research-Based Strategies for Reaching and Teaching today's Adolescents

Authors: Sheryl G Feinstein

Date Available:	18 December 2009
ISBN:	978 1 74239 335 3
Code:	CO3353
RRP:	\$42.95
Format:	214 pages, 180x250mm
Age Range:	High School Years, 7—12
Category:	Brain-based learning
Subject:	Brain research, Adolescence

## Summary:

Teenagers can be mystifying to educators and parents, exhibiting a daunting array of characteristics: emotional, forgetful and fond of risk-taking. What are they really thinking? What is the best way to reach them? The revised and expanded edition of this hands-on guide helps unlock these secrets by explaining the biological and neurological changes happening in the teenage brain. Educators can use these fresh insights from current research to help students achieve their full academic potential. Organised around specific areas of adolescent development, this resource is packed with fresh instructional strategies that can be modified and adapted to various content areas.
