## Key Selling Points:

- Loaded with useful strategies for integrating media and technology into the classroom
- How to use media effectively in lesson planning and introductions
- Hone your students' critical thinking and higher-level thinking skills through the use of media and technology

## Summary:

Use media, technology and the Internet to strengthen student learning and higher-level thinking skills. Technology plus classroom equal success for students whose teachers act as agents for change through brain-friendly media. Topics include: The effect of media on student motivation, behaviour and learning modalities; Using media for lesson planning including objectives, information, skills, meaning, knowledge, models, real-world applications; Using media for teaching the basics through to creative thinking, critical thinking and higher-level thinking skills; Keeping up with the 'big picture'; and more!
